ABOUT ME

Computer Science Engineering student with a strong interest in Full-Stack Web Development, UI/UX Design, and Artificial Intelligence. I enjoy transforming ideas into practical digital solutions that combine functionality with intuitive user experiences.

My journey began with a Diploma in Computer Engineering, where I developed a solid foundation in programming, database management, and software development. Since then, I have worked on projects ranging from web-based applications to AI-driven solutions, gaining hands-on experience with Python, Flask, MySQL, HTML, CSS, JavaScript, and Figma ,Photoshop.
